

Mark Fearing

Visits

Sunset View Elementary

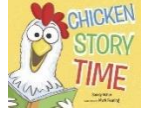

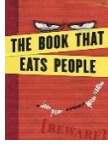

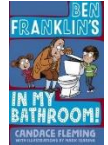

MARK FEARING has worked as an art director for Sony Online, a new media creative director for Pearson Television, and a production manager for Walt Disney TV Animation. Along the way, he was writing and illustrating books. His first book, The Book That Eats People, was published in 2009. Mark says, "My favorite genres are science fiction, horror and humor. Or a combination of all three."

We're excited to be hosting Mark Fearing as our visiting author/illustrator this year at Cottonwood. **He will be with us all day on Wednesday, October 24th.** In order to be ready for when he arrives, books purchased by students will need to be preordered. **All orders need to be returned by Wednesday, October 3rd.** We'll send the order in and have Mark sign the books when he is here. Each student buying a book will be able to meet the author personally. We hope you take advantage of this wonderful opportunity for your child.

Cash and checks are accepted. **Please make checks payable to Sunset View ASB.** Return forms and money to the library.
